DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In order for more than one species to be examined, the appropriate additional examination fees must be paid. The species are as follows:

Species I, Figures 1-5;

Species II, Figures 6 and 7;

Species III, Figures 8 and 9;

Species IV, Figure 10;

Species V, Figure 11;

Species VI, Figures 12.

The claims are deemed to correspond to the species listed above in the following manner:

Species I, Figures 1-5 - claims 1-8;

Species II, Figures 6 and 7 - claims 9-12;

Species III, Figures 8 and 9 - claims 1, 9, and 14;

Species IV, Figure 10 - claims 9-13, 15, and 16;

Species V, Figure 11 - claims 9-12;

Species VI, Figures 12 - claims 1 and 17-21.

No claim is generic.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
